PATENT PENDING

SHAKERSTIX™ SSBE1

The SSBE1 features our patented Shakerstix™ design at the butt-end of the stick with the traditional 5A wood tip at the top. The SSBE1 is built for drummers who want rhythmic flexibility. You can play a shaker or cabasa pattern, then quickly flip the stick to play a beat or groove with the 5A wood tip. Playing the shaker end of the stick on any drum, cymbal or percussive instrument in your kit, enables you to create a very unique sound. The creative possibilities are endless!
